'GOODBYE, NOBBY CLARKE'

PART III

Lonely and Callan arrange to 'frame' Clarke for robbing the Launderette. Callan has a cosh taken from the warehouse with Clarke's prints on it. He coshes Sheppick and robs the safe. In Callan's flat, two of Clarke's thugs hold Lonely captive while they wait to beat up Callan. Meres, whom they accept as one of themselves, is with them to see that Callan is not hurt so badly that he can't 'fix' Clarke. Lonely manages to warn Callan, who deals with the thugs then knocks out Meres. Callan then confronts Clarke in the warehouse, beats him in a fight then telephones the police telling them that the man they want for the Launderette robbery (together with the money and the cosh) are at the warehouse. He visits Sheppick in hospital to sympathise about what his old mate Nobby Clarke did to him.
